DGNN'212"Ugtkgu'Hkgnf "O ckpvpcpeg Recurrent

RECURRENT HF5-B-B;

Course Information

Course Description – 3 Day Course

The Recurrent Course is designed to meet the needs of a Maintenance Technician in maintaining the Bell 212 Series. The course is a combination of theory and practical activities (if available). During this training course a specific schedule is not followed mainly because the time is used to cover any bulletin, issue, troubleshooting brought by student or refresh a concept or review any chapter covered during initial.

Instructor Led Training Course Objectives:

Special emphasis is placed on safety, component location, system normal and abnormal operation and indication, routine service / maintenance requirements and basic troubleshooting of the engine systems.
