

## HELICOPTER TECHNICAL TRAINING

# DGNN'206B/L "Ugtkgu" Hkgnf "O ckpvpcpeg Recurrent

### RECURRENT HF5-B-B;

#### Course Information

#### Course Description – 3 Day Course

The Bell 206B/L IA (A) Recurrent Course is designed to meet the needs of a Maintenance Technician in maintaining the Bell 206B/L Series. The course is a combination of theory and practical activities (if available). During this training course a specific schedule is not followed mainly because the time is used to cover any bulletin, issue, troubleshooting brought by student or refresh a concept or review any chapter covered during initial.

#### Instructor Led Training Course Objectives:

Special emphasis is placed on safety, component location, system normal and abnormal operation and indication, routine service / maintenance requirements and basic troubleshooting of the engine systems.
