

P&WC PT6T-3 Series Twin Pac Series Recurrent

RECURRENT TRAINING

Course Information

Course Description – 1 Day Course

The PT6T-3 Series Recurrent Maintenance Course is designed to meet the needs of a Maintenance Technician in maintaining the PT6T-3 Series Engines. The course is a combination of theory and practical activities(if available). During this training course a specific schedule is not followed mainly because the time is used to cover any bulletin, issue, troubleshooting brought by student or refresh a concept or review any chapter covered during initial.

Instructor Led Training Course Objectives:

Special emphasis is placed on safety, component location, system normal and abnormal operation and indication, routine service / maintenance requirements and basic troubleshooting of the engine systems.
